

## lateral valve

### type RSV 20

**2/2 way valve** direct acting

**pressure range** PN 0-10 bar

**orifice** DN 20 mm

**connection** thread

**function** valve

normally closed

symbol NC

valve

normally open

symbol NO

**design** pressure balanced, with spring return

**body materials**

① brass

③ brass, nickel plated

**valve seat** synthetic resin on metal

**seal materials** NBR

FPM

#### general specifications

#### options

##### details needed

- orifice
- port
- function NC/NO
- operating pressure
- flow rate
- media
- media temperature
- ambient temperature
- nominal voltage

**ports** RSV threads G 3/4 - G 1

|                       |     |      |
|-----------------------|-----|------|
| <b>function</b>       | NC  | NO   |
| <b>pressure range</b> | bar | 0-10 |

|                 |      |            |
|-----------------|------|------------|
| <b>Kv value</b> | m³/h | 6,8        |
| vacuum          |      | low vacuum |

**⚠** The valves' technical design is based on media and application requirements. This can lead to deviations from the general specifications shown on the data sheet with regards to the design, sealing materials and characteristics.

**⚠** If order or application specifications are incomplete or imprecise there exists a risk of an incorrect technical design of the valve for the required application. As a consequence, the physical and / or chemical properties of the materials or seals used, may not be suitable for the intended application.

■ specifications not highlighted are standard  
specifications highlighted in grey are optional

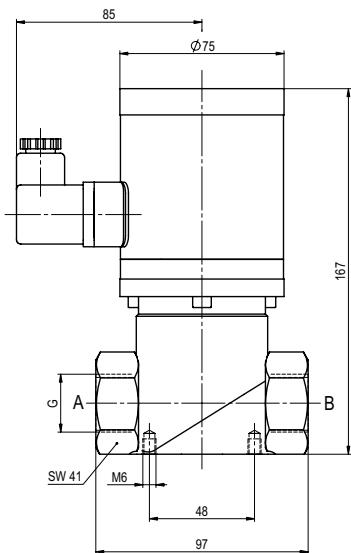

## type RSV 20

function: **NC**  
closed when not energized

## type RSV 20

function: **NO**  
open when not energized

---

The application-specific layout relating to temperature, pressure conditions, switching behavior, media and its consistency may restrict the range of use or necessitate relevant modifications to materials used and seal arrangements.
